

## Fee Information

---

### Fees for Centre Quality Review, Standards Verifier (EE) and NVQ SV

£205 for a centre visit, this is a fixed rate and will not be linked to programmes covered. If it arises that it is not possible to carry out the work required in one day, then discussion must be had about increasing the number of days. This must be negotiated with the relevant Vocational Assessment Manager on a case by case basis.

### Fees for Standards Verification for Lower Level BTECs – Standards Verifiers (QCF)

ALL standards verification will be postal for all programmes, except for the National Diploma CCLD which requires a centre visit (see above).

For each allocation the SV will be paid:

- £80 centre fee: this will not be paid until the final sampling report is submitted.
- £11 per sample: paid when the report for the sample is submitted. Based on our modelling of centre activity, we anticipate the average sampling fee that will be paid per allocation is £105.

### Training

Whilst we do not pay fees for participation in training (apart from BTEC NG SV training – where you receive £150 total - £50 once training is passed and the other £100 once allocations are complete), successful completion of the training to which you are assigned will enable you to be allocated with assessment work.

Where training is face to face and involves travelling to a venue, then expenses will be paid at the standard rates and as per our travel and subsistence policy. In addition, if you are required to leave your house before 6:30am to be on time for the event, we will provide accommodation the night prior.
